Contact Document Control for Status

CHOICE OF RIVETERS

- These heads fit directly on the G740A Cherry® power riveter.
- Will fit on the CherryMAX® riveters (G704B, G746A and G747) with the 704A6 adapter.
- Will fit on G784 with the 680B57 adapter.

MOUNTING INSTRUCTIONS

- Attach riveter to air source for correct piston positioning.
- Make sure the jaws and all internal components of the collet are properly located; see parts list.

BEFORE USE, CHECK:

- The pulling head is correctly mounted and the proper riveter is selected.
- Proper air source is connected (see riveter specification for recommended pressure).
- The tool is clean and in good working condition.

USAGE

- 1/8", 5/32" 3/16" and ¼" CHERRY® rivets, 9000 series.
- The countersunk version of the H9040 series will install both flush and universal head rivets.

DURING OPERATION

- Inspect the active area of the nose piece regularly.
- Keep the tool clean, especially the nose piece and jaws; pay special attention when used with sealants and adhesives.
- If stem slippage occurs, the jaws need to be either cleaned or replaced.
